

Notification dated 10th August, 1994**PROCEEDINGS OF THE GOVERNMENT OF KARNATAKA**

Sub : Karnataka Marine Fishing Regulation Act 1986 - Delimitation of area for exclusive use of Traditional Fishermen - Issue of revised Order regarding.

ORDER NO.AHF 365 SFM 93 BANGALORE, DATED 10TH AUGUST, 1994

REAL :

1. Government Order No.SWL 316 SFM 78 dated 30.3.1978
2. Letter No.FAR (M)3/93 dated 14.9.1993 of the Director of Fisheries, Bangalore.

PREAMBLE:

In the Government Order dated 30.3.1978 read at (1) above, Orders have been issued delimiting operational areas for fishing vessels of different types operating in the coastal area of the state. In the above Government Order under clause 2, it has been specified that a belt from the Sea shore upto 3 miles (5 kms) into the sea shall be reserved for Rampani and Traditional fishing operations. This 5 kilometres belt extends from the on shore to the off shore which has been delimited as the exclusive fishing zone for traditional fishing vessels. However, as there was no uniformity amongst coastal states in delimiting such exclusive zones for traditional fishing there have been many difficulties in enforcing this, consequently traditional fishing was affected greatly. This has been engaging the attention of various State Governments and the Government of India. This issue was discussed in the Central Board of Fisheries which resulted in a recommendation to adopt a uniform pattern of exclusive zones for all the coastal states for this purpose.

In this context the Director of Fisheries has cited this resolution of the 17th Meeting of Central Board of Fisheries held on 14.11.1992 and 15.11.1992 at Hyderabad, wherein the recommendation is to adopt a uniform 10 kms distance from the shore in west coast and 7 kilometres in the East Coast for delimitation for exclusive fishing of Traditional Fishermen. In this connection, the Director of Fisheries has recommended that 10 kilometres distance from shore through out the coastal line could be reserved and delimited for traditional fishing which will be uniform to all the coastal States in order to have protection to the propagation of fish and also to ensure that the fishermen will not trespass in to the neighbouring States and vice-verse. After careful consideration it is felt necessary to ensure judicious exploitation of fish and fishery wealth in the inshore area in the State in the interest of sustained fish production and conservation of fishery wealth, and to protect the occupational interest of traditional fishermen who solely depend on fishing as their main source of sustenance.

It has been noted that the Central Board of Fisheries has recommended to delimit an uniform 10 kilometres distance from the shore in West Coast and 7 kilometres in the entire East coast for exclusive use by traditional fishermen by issuing necessary Notification under the provisions of Rule 3(2) (a) of the Karnataka
